The register yesterday received the will of the late John Connor, which was submitted to probate and record, and letters issued to John Connor, No. 76 K street northwest, upon giving bond in the sum of \$2.000. The case of Richard J. Donnelly was abandoned by the prosecution in the police courty esterday morning. Mr. Donnelly had been arrested for a burglary committed at the house of David Smith, No. 1330 Corcoran street, last November. Winning by a Technicality. Andrew Melville, by his attorney, Mr. H. B. Moulton, on May 10, 1879, entered suit against the Baltimore and Potomac suit against the Baltimore and Potomac Railroad company, claiming \$2,000 damages for putting him off a train between Alexandria and this city in November, 1878. The company demurred to the declaration, on the ground that it contained no cause of action, and the courts sustained the demurrer. Appeal was taken to the general term and the decision affirmed, but leave was given to amend the declaration. On April 30, 1881, the amendment was filed, and to this the statute of limitation was pleaded by the company, on the ground that it contained entirely new matter from what was contained in the original declaration. The cause came on for hearing yesterday, and Justice Hagner sustained the plea, and the jury returned a verdict for the company.

The Marine Corps.

Col. Charles G. McCawley, commandant of the marine corps, in his annual report, submitted yesterday to the secretary o the navy, says that there were 1,902 enlisted men in the corps Oct. 1, 1884. He recommends that congress provide for more privates in the corps, and that the number of second lieutenants be increased to thirty. New barracks are recommended for the troops at the Norfolk navy yard, at an estimated cost of \$12,350, and new houses, at a cost of \$24,000, are needed for the officers at the same place. He thinks an increase should be made in the higher grades of officers, which would not increase the total number of officers now allowed by law to the corps, but would distribute them to better advantage. Promotion in the senior grades is now almost at a standstill. the navy, says that there were 1,902 enat a standstill.

She held a consultation with the commissioners a few days ago on the subject. The commissioners advised her to put her application in writing, and yesterday she sent the following letter:

Hox. Commissioners, D. C.—Mesers: Observing that there is at present a vacancy on our school board. I have the honor herewith to present for that vacancy the tume of Flora H. Stantord, M. D., of No. 411 H street northeast. Washington, D. C. This lady is a cultivated, educated woman; has had experience as a teacher; is a registered practicing physician of this district; has children to educate, and her moral character is above reproach.

She has an interest in our public schools, and is willing, without compensation, to devote the necessary time to visit and to look into the management, standard, and discipline of our public schools, and, as I believe, will meet a want long felt in our community. She is familiar with the matter of text-books.

I can see no convincing argument why one-half of our school board should not be composed of educated, earnest women. Yours, truly,

Beliva A. Lookwood.

THE KING OF FLOOR CLOTHS.—The new and artistic designs brought out this season in the patent "Linoleum" floor cloth will, no doubt, give this popular article an increased sale. It is the only floor covering combining in the highest degree the qualities essential to comfort, elegance, and economy. Inferior foreign imitations, by various names, are on the market, but the superiority of the American make is beyond controversy. The genuine cloth has the Walton trade mark and word "Linoleum" on the back of every square yard. All carpet dealers keep it.
